

A focused innovator of advanced coating, chemical & manufacturing solutions...

APV's diverse range of branded and private label products include: high performance coatings, industrial inks, adhesives, lubricants, inspection marking tools, slurries, and primers. APV is a R&D and manufacturing partner to some of the world's top producing organizations due to our expertise in chemical composition, the commercialization of advanced materials, and large-scale production with acute quality control. Our innovative solutions have been integrated into a variety of industries for unique applications.
