

# TIRE PAINTS

Transform the look and performance of your tires with APV's exceptional tire and rubber paint products. Our advanced formulations are engineered to enhance appearance and optimize performance, allowing for the clean release from molds and curing presses, promoting rubber flow and air release, while effectively eliminating surface defects like lights, cracks, non-fills, and blisters.

## Pre-Cure Outside Tire Paint

**Product Code:** P-9990, P-9991, P-9992, P-9572

Spray-applied water-based paint for uncured (green) tires, providing excellent adhesion, fast drying, and a high-quality finish that improves cured tire appearance.

ITEM #	DESCRIPTION
P-9990	Smooth, uniform sidewall finish
P-9991	Higher viscosity version of P-9990
P-9992	Lower solids version of the P-9990
P-9572	High solids and fast drying

## Features:

- Improves cured tire appearance
- Eliminates lights and non-fills
- Improves rubber flow
- Co-curable
- Fast drying
- Reduces waste/scrap
- Three solids levels available
- Contains no VOCs

## Post-Cure Repair Paint

**Product Code:** P-9562, P-9818, P-9382, P-9383

Water-based paint applied to cured rubber surfaces on new tire and retread production to improve overall tire appearance by masking blemishes, scratches and other imperfections, maintaining a uniform finish.

## Features:

- Improves appearance
- Economical/thin film
- Provides excellent hiding
- Durable finish
- Reduces waste/scrap

## Retread Restoration/Custom Formula Options

***Make your retreads look factory new!***

APV tire paint formulations are custom-engineered to meet specific color and sheen requirements. Our paints deliver full, even coverage so newly installed retreads and buffed carcasses blend seamlessly, creating the appearance of a brand-new OEM tire.

Our Repair Paints are specially designed to restore a uniform, like-new finish by masking scuffs, blemishes, and minor repairs on sidewalls and tread surfaces. The result is a clean, consistent look that enhances appearance and customer confidence.

### Features:

- Custom color and sheen match
- Improves appearance
- Easy to apply
- Fast drying
- Exceptional abrasion resistance
